COVID-19 vaccination is required for all healthcare workers. This **includes staff who work in, and students who study in** a hospital, long term care homes, and any other health care delivery agency.

- Clinical partner agencies may choose to create their own policies regarding mandatory student immunization against COVID-19 as a protective measure for residents and patients. Northern College is required to adhere to these policies as a requirement for staff and students attending clinical.

- **All students are required to submit documentation** for having received the approved primary series of COVID-19 vaccine(s) prior to attendance at our partner healthcare agencies.
- The healthcare agencies have confirmed their policies stating that all students are required to be immunized for COVID-19 to care for residents and patients. **Students who do not meet this requirement** will not be permitted to attend clinical hours and will not meet the expectations for the practical component of the program course, **which will result in course failure.** There will be no exceptions for this requirement.

Students must submit a copy of the official receipt(s) for having received the primary series, **1 or 2 Canadian-approved vaccinations.** If you have not had previous vaccination for COVID-19, 1 dose of XBB.1.5 vaccine is authorized as a primary series for adults who are not moderately or severely immunocompromised.

Canadian Criminal Record Check and Vulnerable Sector Check

The Schools of Health Sciences and Emergency Services require successful completion of placements and / or visits in a variety of agencies that may include schools, health, community, and social agencies. Students will be working with or having unsupervised access to **vulnerable persons*** while on placement and therefore must complete a satisfactory Criminal Record Check and Vulnerable Person Sector Check prior to having direct contact with vulnerable persons.

***Vulnerable persons** are defined by the Criminal Records Act as: “persons who because of their age, disability, or other circumstances, whether temporary or permanent, are in a position of dependence on others or who are otherwise at a greater risk than the general population of being harmed by persons in a position of authority or trust relative to them.”

Without a clear Canadian Criminal Record Check and Vulnerable Sector Check, **a placement agency will deny a student access to their premises.**

Health Sciences students must provide **1 ORIGINAL electronic or hard copy** of their Canadian Criminal Record Check with Vulnerable Person Sector Screening (photocopies/scans or photos will not be accepted and printed copies of electronic copies will not be accepted). **Checks submitted without the Vulnerable Sector Screen completed will not be accepted** and students are responsible for the cost to reapply.
